

\_\_symbol\_t

```
graph BT; A[symbol_ret_t] -.->|ctx_apply symbol| B[__symbol_t];
```

The diagram illustrates a conversion or mapping process. At the bottom is a grey rectangular box labeled 'symbol\_ret\_t'. A dashed purple arrow points upwards from this box to a white rectangular box with a grey border at the top, labeled '\_\_symbol\_t'. To the right of the arrow, the text 'ctx\_apply' and 'symbol' is displayed in a light grey font, indicating the operation or context used for the conversion.
